## NT wins Australian Professional Medium Builder/Renovator at national housing awards

Northern Territory builder **Killarney Homes** has won the **Australian Professional Medium Builder/Renovator** award at the 2017 HIA-CSR Australian Housing Awards.

This year's award winners were unveiled tonight before hundreds of industry leaders at the prestigious awards ceremony held at the Hamilton Island Convention Centre.

The HIA-CSR Australian Housing Awards are the ultimate platform to showcase the talents of the nation's top builders and designers. Winners are selected from state-based finalists, with awards in 21 separate categories (see full list below).

The Australian Professional Medium Builder/Renovator award, partnered by Companion Systems, recognises and acknowledges outstanding business achievement, and provide the opportunity for home builders to demonstrate their commitment to customer service, business management and leadership.

Killarney Homes' strong vision to build the best in energy-efficient homes for the tropics underpins the business' strategic plans and defines its place in the Northern Territory market.

The business has a deep knowledge and understanding of its customer requirements through consultations – before, during and after the build process – and surveys.

HIA NT Executive Director Neilia Humphries said the HIA-CSR Australian Housing Awards program is unsurpassed in the residential building industry.

"I would like to congratulate Killarney Homes on winning the Australian Professional Medium Builder/Renovator award" said Ms Humphries. "This award is an acknowledgement of the high standard shown by our residential builders and their continuing commitment to service excellence in the Northern Territory and across Australia."

HIA is Australia's peak building industry body representing more than 40,000 builders, suppliers and contractors involved in residential construction.

Judged by industry professionals, the awards acknowledge the talent of builders, designers and building companies who plan and construct quality new housing, apartments, renovations, kitchens and bathrooms.
